SOURCE Vecherni Novini.BULGARIA BUILDS MORE SHIPS

Stalin, 11 October (BTA) -- During the past few years, shipbuilding in Bulgaria has progressed considerably. A huge shipyard ["Georgi Dimitrov" Shipyard] has been constructed at Stalin. Almost all the old machines have been replaced by new, modern Soviet machinery. The "Georgi Dimitrov" Shipyard has acquired two new shipbuilding shops, a modern hull shop, and a new foundry. Concrete roads have been constructed in the shipyard and a modern hospital is being erected there.

The "Korbaso" Shipyard produced 60 percent more ship tonnage in 1951 than in 1950.

On 5 October 1951, the personnel of the "Georgi Dimitrov" Shipyard pledged to launch a ship in honor of the 34th anniversary of the October Revolution and two more ships in honor of Stalin's birthday.
